

A CRM APPLICATION FOR SCHOOL / COLLEGES

Introduction

1.1 Overview:

This Project helps you to maintain and manage the College related problems which further can be modified based on the requirements

College:

** This section would provide an overview of the academic programs offered by the college, including majors, minors, and certificates, as well as the departments and schools that offer these programs.*

** This section would provide information about the college's faculty and staff, including their areas of expertise, research interests, and teaching experience.*

**Students*

**Parents*

**Examination*

**Result*

**Revaluation*

**Revaluation Result*

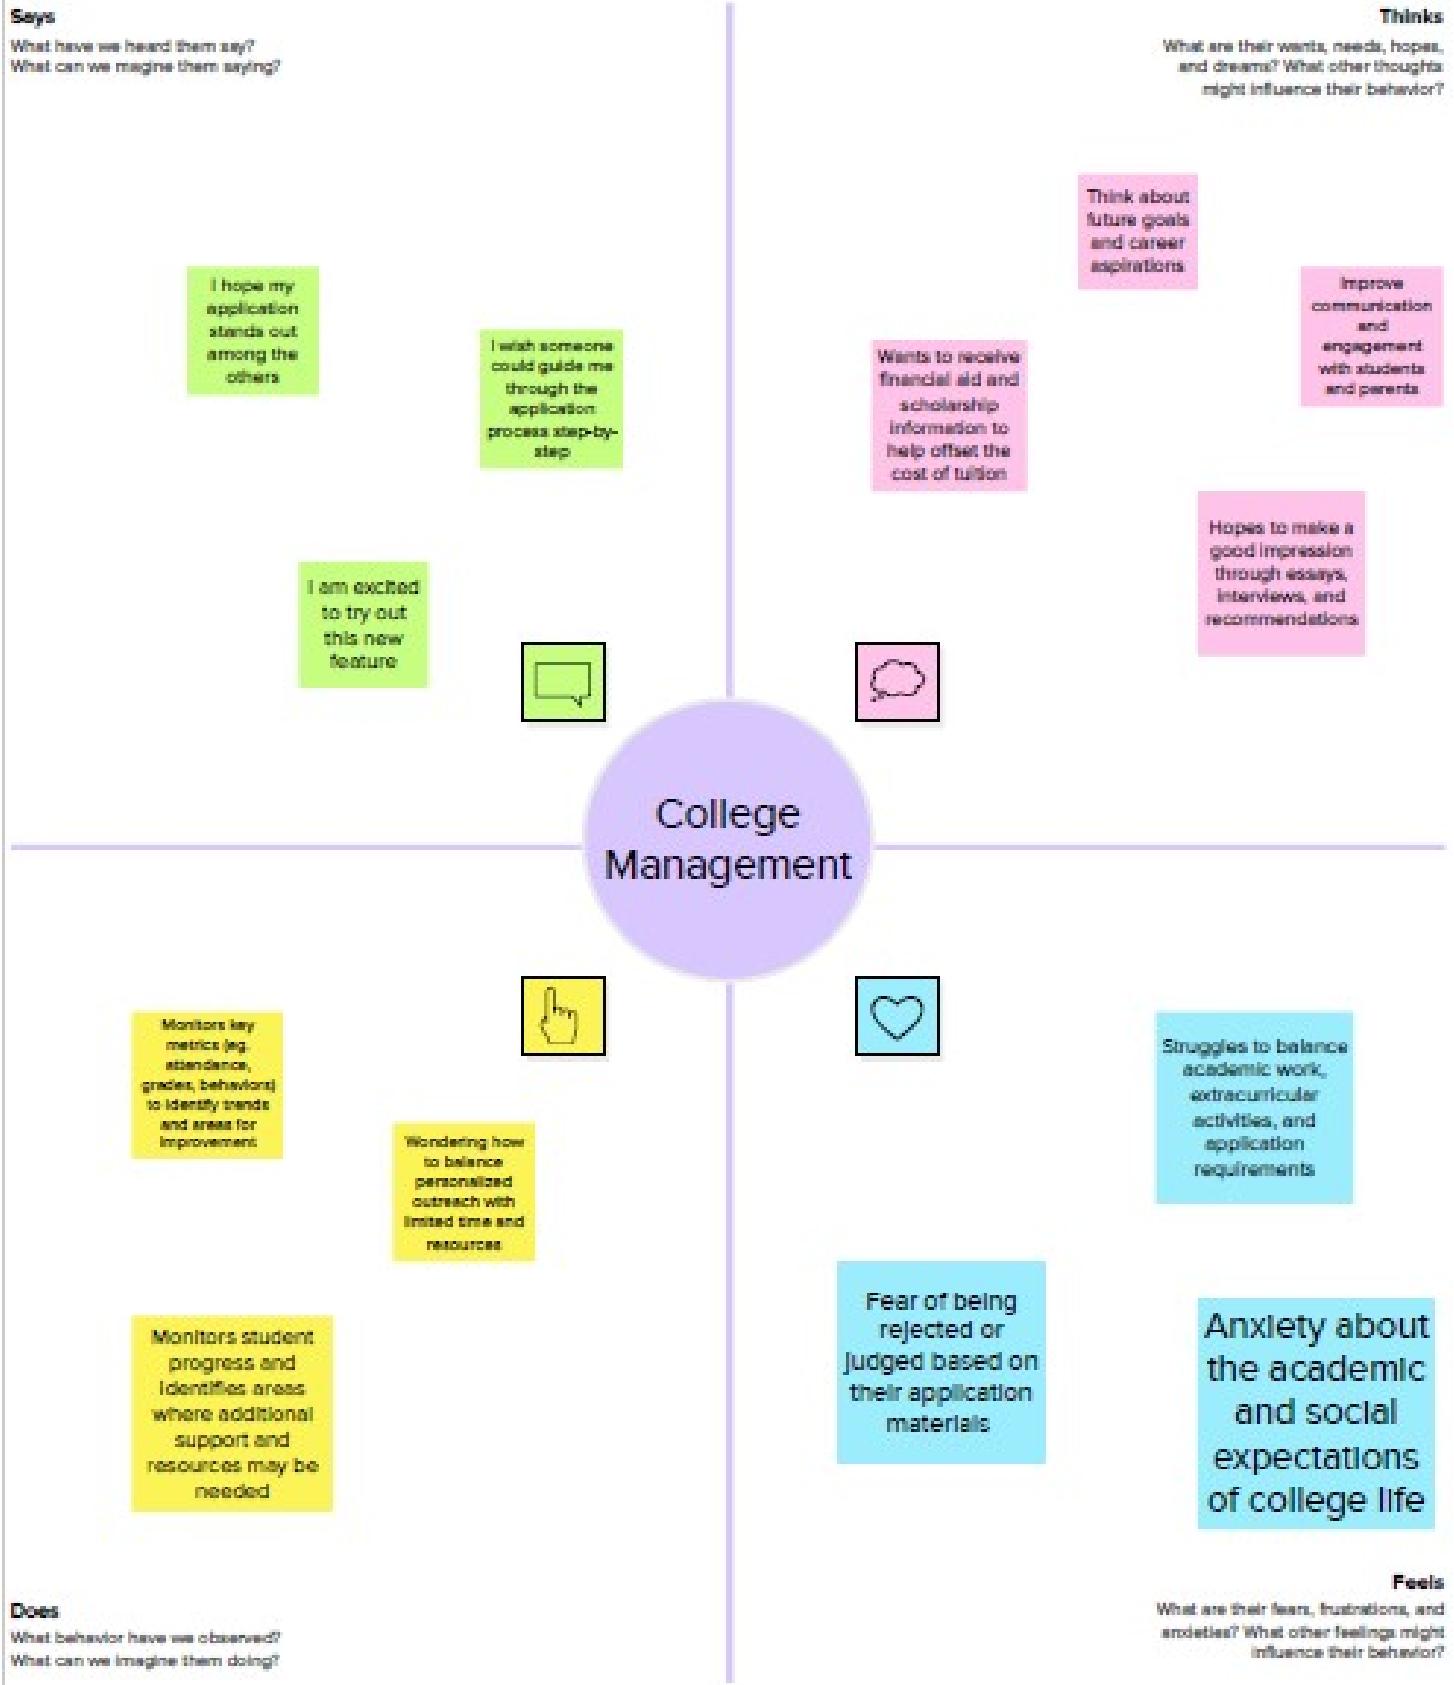

2. Problem Definition & Design Thinking:

2.1 Empathy Map:

An empathy map is a visual tool used to better understand a specific person or customer's experience, thoughts, feelings, and behaviors in a particular situation. It is often used in design thinking, marketing, and customer service to gain a deeper understanding of user needs and create more effective solutions.

An empathy map typically consists of four quadrants, each representing a different aspect of the user's experience:

- 1. Says:** This quadrant focuses on the user's verbal communication, including what they say, how they say it, and what they don't say.
- 2. Thinks:** This quadrant explores the user's thoughts, beliefs, and attitudes, including their fears, hopes, and motivations.
- 3. Does:** This quadrant looks at the user's behaviors, including their actions, body language, and habits.
- 4. Feels:** This quadrant delves into the user's emotions, including their feelings, moods, and reactions.

2.2 Ideation & Brainstorming Map:

An ideation and brainstorming map is a visual tool that helps individuals or teams generate and organize ideas around a central topic or problem. It typically consists of a central idea or problem statement that is surrounded by clusters of related ideas, which are then grouped into categories or themes. The map helps to stimulate creativity and encourage exploration of new ideas by allowing for free-flowing brainstorming and providing a structure to organize and prioritize the generated ideas. The map can be used in various fields, including business, education, design, and innovation, to facilitate ideation and problem-solving

ENG US 6:52 PM 3/8/2023

The screenshot shows the Salesforce Setup Home page. The top navigation bar includes tabs for 'Setup' (selected), 'Home', and 'Object Manager'. A search bar at the top right says 'Search Setup'. On the left, a sidebar lists various setup tools: Service Setup Assistant, Multi-Factor Authentication Assistant, Release Updates, Lightning Experience Transition Assistant, Salesforce Mobile App, Lightning Usage, Optimizer, Administration (with sub-options for Users, Data, Email), and Platform Tools (with sub-options for Subscription Management). The main content area features three cards: 'Get Started with Einstein Bots' (Launch an AI-powered bot to automate your digital connections), 'Mobile Publisher' (Use the Mobile Publisher to create your own branded mobile app), and 'Real-time Collaborative Docs' (Transform productivity with collaborative docs, spreadsheets, and slides inside Salesforce). Below these cards is a section titled 'Most Recently Used' with one item listed. The bottom of the screen shows a taskbar with icons for Windows Start, Search, File Explorer, Task View, Edge browser, Task Manager, and PowerShell.

This screenshot is identical to the first one, showing the Salesforce Setup Home page at 7:00 PM on 3/8/2023. The only difference is the timestamp at the bottom right of the screen.

The screenshot shows the 'New Custom Object' page in the Salesforce Setup interface. The top navigation bar includes tabs for 'Inbox - cb20s381016karuppasan', 'Welcome to Salesforce: Verify', 'Object Manager | Salesforce', and 'New Custom Object | Salesforce'. The main title is 'New Custom Object'. A message bar at the top states: 'Permissions for this object are disabled for all profiles by default. You can enable object permissions in permission sets or by editing custom profiles.' with links to 'Tell me more!' and 'Don't show this message again'. The 'Custom Object Definition Edit' section contains fields for 'Label' (college), 'Plural Label' (colleges), and 'Starts with vowel sound' (unchecked). Below this, the 'Object Name' field is set to 'college'. The 'Description' field is empty. A note indicates that the object name is used via the API. The bottom of the page has a 'Save' button, a 'Save & New' button, and a 'Cancel' button.

This screenshot shows the same 'New Custom Object' page after changes have been made. The 'Plural Label' field now contains 'colleges'. Under 'Context-Sensitive Help Setting', the radio button for 'Open the standard Salesforce.com Help & Training window' is selected. The 'Content Name' dropdown is set to '--None--'. In the 'Enter Record Name Label and Format' section, the 'Record Name' field is set to 'college Name' and the 'Data Type' is 'Text'. The rest of the page remains identical to the first screenshot.

The screenshot shows the 'New Custom Object' page in the Salesforce Setup interface. The page title is 'New Custom Object'. It includes a 'Context-Sensitive Help Setting' section with two radio button options: 'Open the standard Salesforce.com Help & Training window' (selected) and 'Open a window using a Visualforce page'. A 'Content Name' dropdown is set to '--None--'. The main section is 'Enter Record Name Label and Format', where the 'Record Name' is 'college Name' (example: Account Name) and the 'Data Type' is 'Text'. Below this is the 'Optional Features' section, which contains several checkboxes: 'Allow Reports' (checked), 'Allow Activities', 'Track Field History', 'Allow in Chatter Groups', and 'Enable Licensing'. The 'Object Classification' section indicates that the object is classified as an Enterprise Application object because 'Allow Sharing' is checked. The status bar at the bottom shows weather information (87°F, Mostly sunny), system icons, and the date/time (3/22/2023, 1:13 PM).

This screenshot is identical to the one above, showing the 'New Custom Object' page in the Salesforce Setup interface. The configuration is the same: 'college Name' as the record name, 'Text' as the data type, and all optional features checked except for 'Allow Activities'. The status bar at the bottom shows weather information (87°F, Mostly sunny), system icons, and the date/time (3/22/2023, 1:13 PM).

The screenshot shows the Salesforce Setup interface with the title 'New Custom Object'. The page includes sections for 'Object Classification' (checkboxes for Allow Sharing, Bulk API Access, and Streaming API Access), 'Deployment Status' (radio button for Deployed), 'Search Status' (checkbox for Allow Search), and 'Object Creation Options' (checkboxes for adding Notes and Attachments to default page layout and launching the New Custom Tab Wizard). At the bottom are 'Save', 'Save & New', and 'Cancel' buttons.

The screenshot shows the Salesforce Setup interface with the title 'Tabs'. It displays sections for 'Custom Tabs', 'Web Tabs', 'Visualforce Tabs', and 'Lightning Component Tabs', each with a 'New' button and 'What Is This?' link. A sidebar on the left shows a search bar and navigation links for 'User Interface' and 'Tabs'. The status bar at the bottom indicates it's 1:13 PM on 3/22/2023.

The screenshot shows the Salesforce Tabs setup page. The top navigation bar includes tabs for 'Inbox - cb20381016karuppasamy', 'Welcome to Salesforce: Verify', 'Object Manager | Salesforce', and 'Tabs | Salesforce'. The main content area is titled 'SETUP Tabs' and displays 'Step 1, Enter the Details'. It asks to choose a custom object for the new tab, with 'college' selected from a dropdown. A 'Tab Style' section shows 'Treasure chest' selected. An optional 'Splash Page Custom Link' dropdown is set to 'None'. A 'Description' text area is present. The left sidebar lists various setup categories like 'Setup Home', 'Service Setup Assistant', and 'ADMINISTRATION' (with sub-options for Users, Data, Email). The bottom status bar shows weather (87°F, Mostly sunny), system info (ENG US, 1:20 PM, 3/22/2023), and a browser toolbar.

The screenshot shows the 'New Custom Object' definition edit page. The title is 'New Custom Object'. A message bar at the top states: 'Permissions for this object are disabled for all profiles by default. You can enable object permissions in permission sets or by editing custom profiles.' with links to 'Tell me more!' and 'Don't show this message again'. The main form is titled 'Custom Object Definition Edit' with buttons for 'Save', 'Save & New', and 'Cancel'. It contains sections for 'Custom Object Information' (Label: Parent, Plural Label: Parents, Starts with vowel sound checkbox), 'Object Name' (Object Name: Parent, Example: Account), and a 'Description' text area. The bottom status bar shows weather (87°F, Mostly cloudy), system info (ENG US, 7:24 PM, 3/8/2023), and a browser toolbar.

The screenshot shows the Salesforce Setup interface with the title 'New Custom Object'. The 'Record Name' field is set to 'Parent Name' and 'Data Type' is 'Text'. Under 'Optional Features', 'Allow Reports' is checked. The 'Content Name' dropdown is set to 'None'. A note at the top states: 'The Record Name appears in page layouts, key lists, related lists, lookups, and search results. For example, the Record Name for Account is "Account Name" and for Case it is "Case Number". Note that the Record Name field is always called "Name" when referenced via the API.' The status bar at the bottom indicates '87°F Mostly cloudy'.

This screenshot shows the same 'New Custom Object' page with additional sections. Under 'Object Classification', 'Allow Sharing', 'Allow Bulk API Access', and 'Allow Streaming API Access' are checked. Under 'Deployment Status', there is a link 'What is this?'. The status bar at the bottom indicates '87°F Mostly cloudy'.

The screenshot shows the Salesforce Setup interface with the tab 'Tabs | Salesforce'. The page title is 'New Custom Object'. The main content area is titled 'Object Classification' and includes sections for 'Allow Sharing', 'Allow Bulk API Access', and 'Allow Streaming API Access', all of which are checked. Below this is the 'Deployment Status' section with 'Deployed' selected. The 'Search Status' section has 'Allow Search' checked. The 'Object Creation Options' section contains two unchecked checkboxes: 'Add Notes and Attachments related list to default page layout' and 'Launch New Custom Tab Wizard after saving this custom object'. At the bottom are 'Save', 'Save & New', and 'Cancel' buttons.

The screenshot shows the Salesforce Setup interface with the tab 'Tabs | Salesforce'. The page title is 'New Custom Object Tab'. The main content area is titled 'Step 1. Enter the Details' and shows 'Step 1 of 3'. It asks to choose a custom object and provides fields for 'Object' (set to 'Parent') and 'Tab Style'. An optional 'Splash Page Custom Link' dropdown is set to '--None--'. A 'Description' text area is present. On the left sidebar, under 'User Interface', 'Tabs' is selected. A global search bar at the top left shows 'tabs'. The status bar at the bottom indicates it's 7:26 PM on 3/8/2023.

The screenshot shows the Salesforce Setup interface with the 'Tabs' configuration page open. The left sidebar has a search bar and navigation links for 'User Interface' (selected), 'Rename Tabs and Labels', and 'Tabs'. A message at the bottom says 'Didn't find what you're looking for? Try using Global Search.' The main content area is titled 'SETUP Tabs' and displays a form for creating a new custom tab. It asks to choose a custom object ('Object' dropdown set to 'Parent') and a tab style ('Tab Style' dropdown set to 'Standard'). An optional field for a splash page custom link is shown, currently set to '--None--'. A description text area is provided. At the bottom right are 'Next' and 'Cancel' buttons.

The screenshot shows the 'New Custom Object Tab' configuration page, Step 2 of 3. The left sidebar is identical to the previous screen. The main content area is titled 'New Custom Object Tab' and 'Step 2 of 3'. It asks to choose user profiles for the new tab. A radio button is selected for 'Apply one tab visibility to all profiles' (set to 'Default On'). Below this is a table mapping profiles to tab visibility settings. All profiles listed have 'Default On' selected. The table columns are 'Profile' and 'Tab Visibility'. The profiles listed are: Analytics Cloud Integration User, Analytics Cloud Security User, Authenticated Website, Authenticated Website, Contract Manager, and Cross Org Data Proxy User. At the bottom right are 'Help for this Page' and 'Next Step' buttons.

The screenshot shows the 'Tabs' setup page in Salesforce. The left sidebar has a search bar with 'tabs' typed in, a 'User Interface' section with 'Rename Tabs and Labels' and 'Tabs' selected, and a note 'Didn't find what you're looking for? Try using Global Search.' The main content area is titled 'SETUP Tabs'. It lists various user profiles with their 'Default On' status for tabs:

User Profile	Default On
Marketing User	Default On
Minimum Access - Salesforce	Default On
Partner App Subscription User	Default On
Partner Community Login User	Default On
Partner Community User	Default On
Read Only	Default On
Silver Partner User	Default On
Solution Manager	Default On
Standard Platform User	Default On
Standard User	Default On
System Administrator	Default On

At the bottom right are 'Previous', 'Next', and 'Cancel' buttons.

The screenshot shows the 'Tabs' setup page in Salesforce. The left sidebar has a search bar with 'tabs' typed in, a 'User Interface' section with 'Rename Tabs and Labels' and 'Tabs' selected, and a note 'Didn't find what you're looking for? Try using Global Search.' The main content area is titled 'SETUP Tabs'. It lists various standard tabs with checkboxes indicating they are available for users:

Tab	Available
Analytics Studio (standard__Insights)	<input checked="" type="checkbox"/>
Sales Console (standard__LightningSalesConsole)	<input checked="" type="checkbox"/>
Service Console (standard__LightningService)	<input checked="" type="checkbox"/>
Sales (standard__LightningSales)	<input checked="" type="checkbox"/>
Lightning Usage App (standard__LightningInstrumentation)	<input checked="" type="checkbox"/>
Digital Experiences (standard__SalesforceCMS)	<input checked="" type="checkbox"/>
Queue Management (standard__QueueManagement)	<input checked="" type="checkbox"/>
Data Manager (standard__DataManager)	<input checked="" type="checkbox"/>
Subscription Management (standard__RevenueCloudConsole)	<input checked="" type="checkbox"/>
Salesforce Scheduler Setup (standard__LightningScheduler)	<input checked="" type="checkbox"/>
Bolt Solutions (standard__LightningBolt)	<input checked="" type="checkbox"/>

Below the list is a checkbox for 'Append tab to users' existing personal customizations'. At the bottom right are 'Previous', 'Save', and 'Cancel' buttons.

Q Search

5:46 AM 4/5/2023

The screenshot shows the 'Permission Sets' page in the Salesforce Setup. The page title is 'Permission Sets'. It displays a table of existing permission sets, each with a checkbox, a label, a description, and a license column. The labels include 'Buyer', 'Buyer Manager', 'CRM User', 'Commerce Admin', 'Contact Center Admin', 'Contact Center Agent', 'Contact Center Supervisor', and 'Experience Profile Manager'. The descriptions provide details about the permissions granted by each set. The license column indicates the type of license required for each set. A navigation bar at the top includes links for 'All Permission Sets', 'Edit', 'Delete', and 'Create New View'. A search bar and a help link are also present.

The screenshot shows the 'Create' page for a new permission set in the Salesforce Setup. The page title is 'Permission Set Create'. The form has fields for 'Label' (set to 'Faculty Permission'), 'API Name' (set to 'developerName'), and 'Description'. A note indicates that session activation is required. Below the form, there is a section titled 'Select the type of users who will use this permission set' with instructions on how to choose the user type. The bottom right corner of the page shows a note about required information.

The screenshot shows the Salesforce Permission Sets page. The URL is https://karuppasamy4-dev-ed.lightning.force.com/lightning/setup/PermSets/page?address=%2F0PS2w00000AAA8y%3B. The page title is "Permission Sets | Salesforce". The left sidebar has "Setup" selected under "Object Manager". The main content area shows a "Permission Set Overview" for "Faculty Permission". The API Name is "Faculty_Permission", and it was created by "Karuppasamy_S" on "05/04/2023, 5:49 am". The "Description" field is empty. The "License" field is also empty. The "Session Activation Required" checkbox is unchecked. The "Last Modified By" field shows "Karuppasamy_S" on "05/04/2023, 5:49 am". Below this, there is a section titled "Apps" with four categories: "Assigned Apps", "Assigned Connected Apps", "Object Settings", and "App Permissions".

A screenshot of a web browser displaying the Salesforce Lightning interface. The top navigation bar shows the weather as 84°F Partly cloudy, a search bar, and various application icons. The title bar reads "Permission Sets | Salesforce". The main content area is titled "Faculty Permission" under "PERMISSION SET 'FACULTY PERMISSION'". A sidebar on the left is titled "Permission Sets" and includes a search bar, a "Users" section, and a note about global search. The central area is titled "Current Assignments" and features a decorative illustration of a cactus and clouds. Below the illustration, a message says "No assignments defined." The bottom navigation bar is identical to the top one.

5.ADVANTAGES:

- * An online examination form filling.
- * Answer book valuations and marks filled into control sheet.
- * Easy to exam apply.
- * Re-checking and re-evaluation forms.
- * Data Safe and Secure.
- * Easy to access other people's data.

DISADVANTAGE:

- *The excess initial time and productivity cost of Implementation.
- *It requires a process driven sales organization.
- *Only online usage Application .
- *Technical problems or connection errors may occur.
- * This is no equity in the condition to take the exam.

APPLICATIONS:

- *College application** is the process by which individuals apply to gain entry into a college or university. Although specific details vary by country and institution, applications generally require basic background information of the applicant, such as family background, and academic or qualifying exam details such as grade point average in secondary school and standardized testing scores
- *Typically, universities will provide an exam schedule before the start of the exam period. This schedule will indicate the dates and times of each exam.
- *The results usually include the grades or marks obtained by each student in each subject, as well as their overall GPA (Grade Point Average) or CGPA (Cumulative Grade Point Average) for the semester or year. Depending on the university, the results may also include additional information such as the student's rank in the class, any academic awards or recognition they may have received, and any remarks or feedback from the instructor or examiner.

CONCLUSION:

- * This includes basic information such as name, address, contact details, date of birth, and educational background. It may also include information about the student's interests, extracurricular activities, and academic performance.
- * This refers to an exam that tests knowledge and understanding of the principles and practices of CRM (Customer Relationship Management) in the context of colleges. This exam could cover topics such as data collection, analysis, and management; communication strategies; student support services; and donor relations. It would be aimed at students or professionals who are interested in working in the field of higher education administration or CRM

FUTURE SCOPE:

- * With the use of artificial intelligence and machine learning, exams could become more personalized and adaptive to each individual student's strengths and weaknesses. This can help to provide a more accurate assessment of student understanding and reduce the potential for bias in the exam.
- * With the use of digital technology, exam results could be provided to students in real-time or soon after the exam has been completed. This can help to provide immediate feedback on student performance and identify areas for improvement.
- * Exam revaluation could be conducted using digital verification systems, which can help to reduce the potential for errors or biases in the revaluation process.
